

NEW JERSEY
AMERICAN WATER

Out with the old.
In with the new.

Your water bill at work.
We're replacing 1,750 feet of aging pipe **in your neighborhood.**

We're investing in your neighborhood

Residents in Linwood count on us to keep their water safe, clean and reliable. By constantly upgrading our infrastructure, we're planning to keep it that way. Think of it as your water bill at work – right in your own neighborhood.

WHAT: We're replacing 1,750 feet of 6-inch aging pipe that was installed in the 1940s with new 12-inch pipe.

WHY: The pipeline project will improve water service reliability and increase water flows for household use and firefighting.

WHERE: Central Avenue (US Route 9 to Shore Road) and Grammercy Avenue (Central Avenue to Crossing Drive)

WHEN: Weather permitting, work is scheduled to begin on or about the week of July 6 and conclude by August 31. Final street restorations will be coordinated in the fall of 2015.

WHO: New Jersey American Water's qualified contractor, F.W. Shawl & Sons, Inc.
